smithy soft[®]

What working with us changes

Our clients don't just ship more. They sleep better.

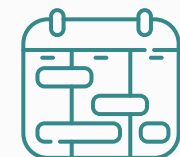

Because fewer 3 a.m. emergencies mean better businesses — and better careers.

We operate in Ukraine with full awareness of the risks — and with systems designed to manage them. That discipline reduces delivery volatility and limits operational surprises.

More reliable delivery cycles

Consistent execution instead of rushed releases — fewer resets and less rework.

Higher delivery predictability

Clearer planning accuracy and fewer last-minute escalations under pressure.

Lower operational overhead

Less manual coordination and fewer avoidable incidents across teams.

Built on trust and accountability

Diia.City residency

SmithySoft® is a Diia.City resident software company (Ukrainian registration code 45140883) providing **full-cycle product development**.

We operate under transparent taxation and use internationally aligned contracting standards.

International registrations

Active U.S. federal and NATO registration identifiers supporting international business operations.

SAM UEI: WWNPDD9L7K65

D-U-N-S: 44-794-9692

NCAGE: A43MJ

Registered trademark

SmithySoft® is a registered trademark (Reg. UA 502021000018123).

Engineering with ownership

Process maturity

Structured, documented workflows that ensure consistent quality from discovery to launch.

Predictability

Clear expectations, stable delivery cycles, and transparent planning.

Responsibility

Ownership in every step — technical, operational, and ethical.

Integrity

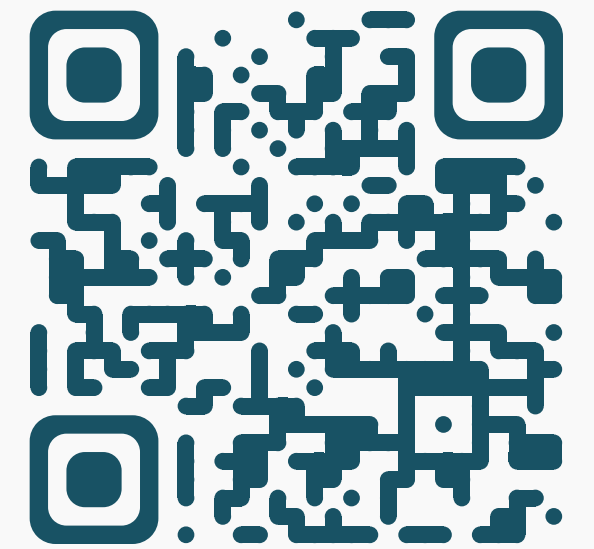

Honest communication, transparent decisions, and commitment you can rely on.

SmithySoft's app was used by 34,000 startups around the globe and hundreds of leading venture capital funds. The team was responsive, collaborative, and excellent at meeting deadlines. Virtual meetings and emails ensured seamless project management. SmithySoft's code quality was exceptional.
